

Kirila Race Team Update 1-14-08

It was another excellent weekend for Gene in his Legend car at Lowe's and Rockingham.

Gene raced his way to a 4th place finish on the road course at Lowe's Motor Speedway on Saturday and grabbed the 2nd place spot at Rockingham on Sunday.

Starting in 3rd place for heat number 1, Gene was smooth and drove his car to the checkered flag for the win. In Heat 2 they inverted the field and he started in the back.

Gene was able to pass several cars to move him up and finish 4th. With a starting position of 7th place in the feature, he moved up quickly during the first laps and was able to get himself **up to** 4th place for the finish.

At Rockingham, Gene worked very hard to make up ground in the 1st heat. He started in 12th place and drove his way up to 5th for the finish. With only one heat race, Gene was placed in 4th to begin the feature. The line up was determined by a combination of the finish of the heat as well as the number of cars passed.

He passed 2 cars within the first 2 laps and stayed in a consistent rhythm. He was not able to catch the leader who got a jump on him while Gene was passing the other cars. The leader made no mistakes, and neither did Gene. He was able to hold off the 3rd place car who was right on his tail and took the checkered for 2nd.

Thanks for your continued support!!!
