

## Wreck at Lernerville Made for Short Night

### Kirila Race Update 5-25-09

Author: Ginger Kirila

Friday night May 22, 2009 the Kirila Gorilla team headed to Lernerville Speedway for Gene's 4<sup>th</sup> race in the dirt modified.

During the heat race there was damage to the car which kept Gene from running in the feature.

Gene started the 8 lap heat race in 6<sup>th</sup> place. He was driving well and he passed a few cars to move up to 4<sup>th</sup>. On lap 7, Gene threw the car into the corner and the rear end came around too far which caused the car behind him to hit into his rear tire and axle. There was minor damage to the car but with some of the rear parts near the axle broken, it kept him from racing the feature.

*Coming out of turn 4 at Lernerville*

Each time Gene is on the track, he is learning more, gaining experience and becoming more comfortable running on the dirt.

Thanks to all of our fans and sponsors for your constant encouragement and support.

A special thank you to Gene's grandparents Bill and Cynthia Buff for coming to support us this past weekend and for taking some great pictures.

We will be at Lernerville Speedway this coming weekend, Friday, May 29, 2009.
