

Kirila race update 12-1-07

On December 1, 2007 it was the kick off to the 2007-2008 Winter Heat series at Lowe's Motor Speedway. Gene and the team traveled to Concord, NC for the race weekend. There were approximately 30 cars in Gene's Semi-Pro class. Gene started 3rd in the heat race and finished 3rd. This locked him in to the A main feature race. There was a field of 18 cars in the main event. Gene had a great starting position of 7th place but they only had 15 laps during the feature to get to the front on the 1/5 mile track. There was lots of beating and banging since there were so few laps for the drivers to work their way up. Gene had an awesome run with a 6th place finish. The Winter Heat series is a 10 race series which will run each week on Saturday until February.
